

Advanced ESG & Operational Reporting for Growing Organisations

Move beyond basic reporting with enhanced emissions visibility, transition planning, and operational intelligence designed to support lender expectations, procurement requirements, and long-term resilience.

The next step beyond Essentials.

Essentials+ is designed for organisations facing more complex reporting expectations and growing stakeholder demands.

ALL OF ESSENTIALS, PLUS:

- ✓ Scope 3 Reporting
- ✓ Product-Level Reporting
- ✓ Transition Planning
- ✓ Reduction Pathway Modelling
- ✓ Advanced Operational Reporting
- ✓ Enhanced Emissions Visibility

Try Essentials+ with your real data www.visionzeroconnect.com

Why Organisations Choose Essentials+

Procurement Ready

Respond confidently to supplier, customer, and tender requirements.

Lender Ready

Support financing discussions with professional reporting outputs.

Operational Visibility

Turn reporting data into practical operational insights.

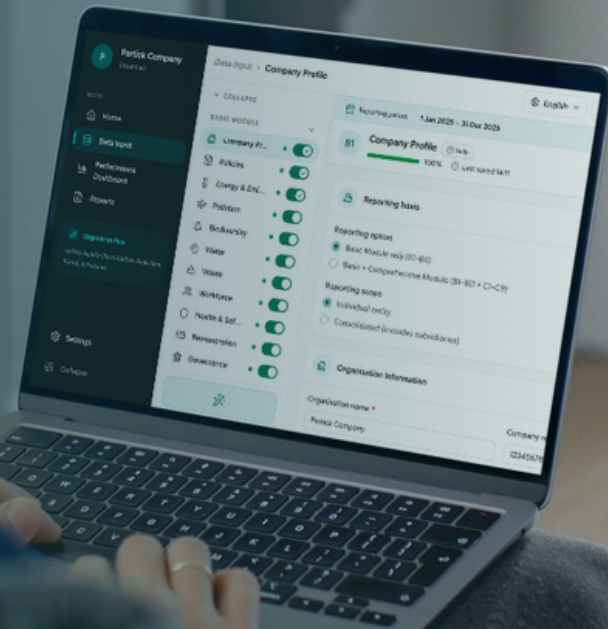

Strategic Planning

Build a clearer pathway toward long-term operational resilience.

Helping Organisations Stay Ahead

As reporting expectations continue to evolve, organisations are increasingly expected to demonstrate greater transparency across operations, emissions, and performance.

essentials+ helps simplify this process through one platform designed to support:

- ✓ Procurement requirements
- ✓ Stakeholder reporting
- ✓ Supply chain transparency
- ✓ Operational reporting
- ✓ Transition planning
- ✓ Emissions visibility

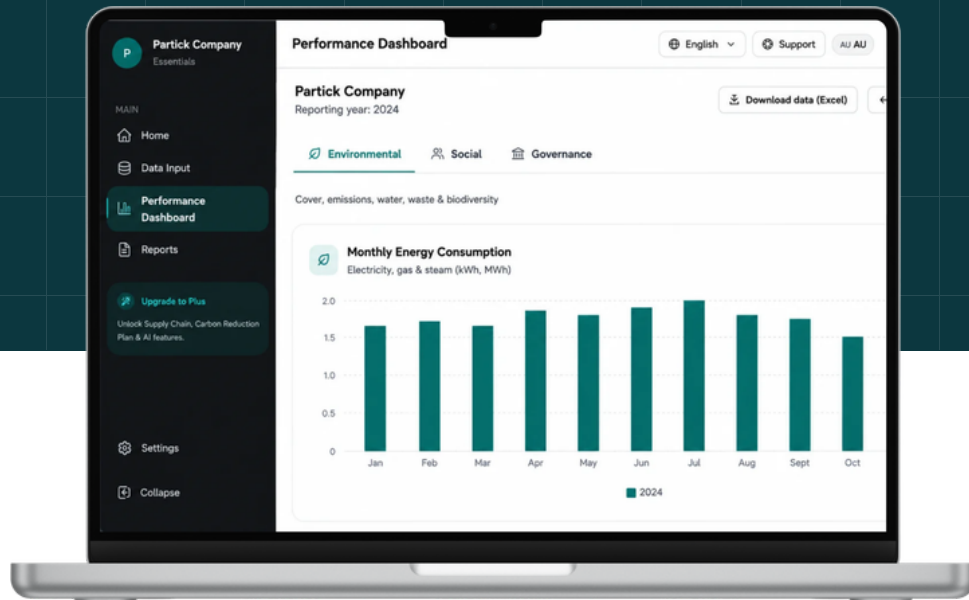

Powered by Vision Zero Connect

Essentials+ forms part of the Vision Zero Connect ecosystem, combining technology, operational expertise, and reporting intelligence to help organisations remain commercially ready in a changing reporting environment.

Global Perspective. Local Relevance.

Supporting organisations across **Australia, UK, Europe, Hong Kong, USA.**

Stay Ahead of Reporting Expectations

Reduce reporting complexity. Improve operational visibility.
Strengthen stakeholder confidence.
